KNOW BEFORE YOU GO

- Bring reef-safe sunscreen. Tivua is a protected reef environment — chemical sunscreens damage coral. Mineral (zinc-based) sunscreen only, or go without.
- Turtle nesting season: Oct–Apr. During this period the island becomes a sanctuary for nesting sea turtles — respect the roped-off nesting areas.
- Don't miss the last tender. The island runs on a schedule tied to the ship's departure — check the posted last boat time and leave the water with plenty of time to spare.
